FICTIONAL COMPANY DISCLAIMER. GlowDerma Skincare is a fictional company. All products, product IDs, prices, ingredient concentrations, SPF values, contact details, policies and timelines in this document are invented for software demonstration and testing only. No real products are sold. This document is not medical advice and does not describe treatments for any medical condition.

1. Company Overview

1.1 Company introduction and mission

GlowDerma Skincare is a fictional skincare brand based in Cairo, Egypt, imagined as founded in 2019. The brand sells 14 products in four categories: 3 cleansers (GD-CL-101 to GD-CL-103), 4 moisturizers (GD-MO-201 to GD-MO-204), 4 serums and targeted treatments (GD-SE-301 to GD-SE-304) and 3 sunscreens (GD-SU-401 to GD-SU-403). **Mission:** to make clear, gentle and realistic daily skincare accessible to customers in Egypt, with honest labelling and no exaggerated promises.

1.2 Brand values and product philosophy

Brand values: (1) Honesty: products make cosmetic claims only. (2) Gentleness: all 14 products are described as fragrance-free and essential-oil-free. (3) Simplicity: short routines that customers can follow every day. (4) Sun awareness: daily sunscreen is treated as the foundation of every routine. (5) Transparency: concentrations of key active ingredients are stated.

Product philosophy: GlowDerma builds routines around four steps: cleanse, treat (optional), moisturize and protect. Active ingredients such as retinol, vitamin C and salicylic acid are offered at moderate strengths and introduced gradually. Products are cosmetics intended to care for the appearance and comfort of healthy skin.

1.3 Target audience

GlowDerma products are intended for adults in Egypt, including (a) beginners who want a simple first routine, (b) customers with oily or combination skin who live in hot weather, (c) customers with dry or sensitive-feeling skin who want gentle products, and (d) customers who want reliable daily sun protection. Teenagers should use the products with the guidance of a parent or guardian.

1.4 Customer support channels and business hours (fictional)

Channel	Contact (fictional)	Hours (Cairo local time)	Typical response
Email	support@glowderma.example	Sunday to Thursday, 09:00 to 18:00	Within 1 business day
Phone	+20 2 5555 0123	Sunday to Thursday, 09:00 to 18:00	Answered live
WhatsApp	+20 100 555 0123	Sunday to Thursday, 09:00 to 21:00	Within 2 hours in hours
Live chat	Website chat widget	Sunday to Thursday, 09:00 to 21:00	Within 10 minutes
Website orders	www.glowderma.example	24 hours a day, every day	Instant confirmation

Customer support is closed on Fridays, Saturdays and Egyptian public holidays. A **business day** in this document means Sunday to Thursday excluding public holidays.

1.5 Frequently asked general questions

Is GlowDerma Skincare a real company? No. It is fictional, and its products cannot be bought.

What is a product ID? A unique code in the format GD-XX-NNN. CL means cleanser, MO moisturizer, SE serum or targeted treatment, SU sunscreen. Example: GD-SE-301 is the Niacinamide 5% Serum.

Where are the full ingredient lists? This document lists key ingredients and stated concentrations only, not complete INCI lists. For a complete list a customer should contact customer support.

Are the products medical treatments? No. They are cosmetic products. Questions about skin conditions should go to a qualified dermatologist (see Section 10).

1.6 Frequently used terminology

Term	Meaning in this document
Product ID	Unique code for each product, for example GD-CL-101. Always use the ID to avoid confusing similar product names.
Key ingredient	An ingredient highlighted for its cosmetic role. Not a complete ingredient list.
Skin type	Oily, dry, combination, normal or sensitive. Used to guide product choice, not to diagnose.
SPF / PA	SPF is Sun Protection Factor, mainly about UVB. PA (PA+ to PA++++) is a rating of UVA protection; more plus signs mean higher UVA protection.
Broad-spectrum	Protects against both UVA and UVB radiation. All three GlowDerma sunscreens are described as broad-spectrum.
Patch test	Applying a small amount of a new product to the inner forearm and observing for 24 hours before using it on the face.
EGP	Egyptian pound. All prices include fictional VAT.

SECTION 2 OF 10 | PRODUCT CATALOG: CLEANSERS

2. Skincare Product Catalog: Cleansers

GlowDerma offers three cleansers: **GD-CL-101 Gentle Cream Cleanser**, **GD-CL-102 Clarifying Gel Cleanser** and **GD-CL-103 Micellar Cleansing Water**. A cleanser removes dirt, excess oil, sunscreen and makeup residue. The right choice depends mainly on skin type and on whether the customer wears sunscreen or makeup.

GD-CL-101 | Gentle Cream Cleanser | Cleanser	
Product ID and size	GD-CL-101, 150 ml, price 245 EGP
Skin types	Dry, normal and sensitive skin
Key ingredients	Glycerin, Ceramide NP, Panthenol, Allantoin
Description	A soft, non-foaming cream cleanser that removes dirt and light sunscreen residue without leaving skin feeling tight. Contains glycerin to attract water and ceramide NP to support the skin barrier.
Usage instructions	Massage onto damp skin for 30 seconds and rinse with lukewarm water. Use morning and evening.
Warnings	For external use only. Avoid contact with eyes; if contact occurs, rinse with water. Stop use if irritation develops.

GD-CL-102 | Clarifying Gel Cleanser | Cleanser	
Product ID and size	GD-CL-102, 200 ml, price 265 EGP
Skin types	Oily and combination skin
Key ingredients	Salicylic Acid 0.5%, Glycerin, Zinc PCA, Green Tea Extract
Description	A light gel cleanser that removes excess surface oil and daily buildup. Contains low-strength salicylic acid (0.5%), a beta hydroxy acid (BHA) used in cosmetics for cleansing and smoothing the look of skin, plus zinc PCA and green tea extract.
Usage instructions	Use once daily for the first 2 weeks, then up to twice daily if skin stays comfortable. Massage onto damp skin for 30 seconds, then rinse thoroughly. Do not leave on the skin.
Warnings	Contains salicylic acid. May cause dryness or stinging. Avoid eyes and lips. Use sunscreen the next morning. Do not use together with GD-SE-304 on the same night during the first 4 weeks. Customers sensitive to salicylates should consult a professional first.

GD-CL-103 | Micellar Cleansing Water | Cleanser	
Product ID and size	GD-CL-103, 250 ml, price 290 EGP
Skin types	All skin types, including sensitive skin
Key ingredients	Glycerin, Panthenol, Cucumber Extract, Micellar Surfactant Blend
Description	A no-rinse cleansing water that lifts makeup, sunscreen and surface impurities. Designed as the first step of an evening double cleanse, followed by GD-CL-101 or GD-CL-102.
Usage instructions	Soak a cotton pad, press on the face for 10 seconds, then wipe gently without rubbing. Follow with a rinse-off cleanser in the evening.
Warnings	For external use. Close eyes while wiping and avoid direct eye contact. Stop use if irritation develops.

Differences between the cleanser products

Feature	GD-CL-101	GD-CL-102	GD-CL-103
Name	Gentle Cream Cleanser	Clarifying Gel Cleanser	Micellar Cleansing Water
Format	Cream, rinse-off	Gel, rinse-off	Water, no-rinse (wipe with cotton pad)
Best for	Dry, normal, sensitive	Oily, combination	All skin types, makeup and sunscreen removal
Special ingredient	Ceramide NP	Salicylic Acid 0.5%	Cucumber Extract, micellar surfactant blend
Size / price	150 ml / 245 EGP	200 ml / 265 EGP	250 ml / 290 EGP
Price per 100 ml	163 EGP	133 EGP	116 EGP
Typical use	Morning and evening	Once daily, then up to twice daily	Evening first cleanse

In short: GD-CL-101 is the gentlest choice for dry or sensitive skin, GD-CL-102 is the only cleanser containing an active ingredient (salicylic acid 0.5%), and GD-CL-103 is the only no-rinse option and the best first step for removing sunscreen such as GD-SU-402.

SECTION 3 OF 10 | PRODUCT CATALOG: MOISTURIZERS

3. Skincare Product Catalog: Moisturizers

GlowDerma offers four moisturizers: GD-MO-201, GD-MO-202, GD-MO-203 and GD-MO-204. A moisturizer helps reduce water loss from the skin surface and keeps skin feeling comfortable. Three are everyday products; **GD-MO-204 is a night-only product containing retinol 0.2%**.

GD-MO-201 | Barrier Repair Cream | Moisturizer	
Product ID and size	GD-MO-201, 50 ml, price 420 EGP
Skin types	Dry, very dry and sensitive skin
Key ingredients	Ceramide NP, Ceramide AP, Ceramide EOP, Glycerin 5%, Squalane, Shea Butter
Benefits	A rich cream that supports the skin barrier by helping reduce water loss. Combines three ceramides (NP, AP, EOP) with glycerin 5%, squalane and shea butter for dry or tight-feeling skin.
Directions	Apply a pea-sized to almond-sized amount to face and neck, morning and evening, after serum.
Precautions	External use only. Contains shea butter; customers with known shea or tree-nut sensitivity should consult a professional before use. Stop use if rash or irritation develops.

GD-MO-202 | Oil-Free Gel Moisturizer | Moisturizer	
Product ID and size	GD-MO-202, 50 ml, price 380 EGP
Skin types	Oily, combination and normal skin
Key ingredients	Sodium Hyaluronate 0.5%, Niacinamide 2%, Glycerin 3%, Panthenol
Benefits	A lightweight, oil-free, water-based gel that absorbs quickly with no greasy finish. Combines sodium hyaluronate 0.5% and glycerin 3% for hydration with niacinamide 2% for a balanced-looking skin surface.
Directions	Apply a pea-sized amount to face and neck morning and evening, after serum and before sunscreen in the morning.
Precautions	External use only. Avoid eyes. Perform a patch test if skin is reactive to niacinamide.

GD-MO-203 | Daily Light Lotion | Moisturizer	
Product ID and size	GD-MO-203, 100 ml, price 340 EGP
Skin types	Normal, combination and mildly dry skin
Key ingredients	Glycerin 4%, Squalane, Panthenol, Tocopherol (Vitamin E)
Benefits	A fast-absorbing everyday lotion in a larger 100 ml size. Glycerin 4%, squalane and panthenol provide light, comfortable moisture; tocopherol (vitamin E) acts as an antioxidant ingredient in the formula.
Directions	Apply to face, neck and hands morning and evening. Suitable as a simple one-step moisturizer.
Precautions	External use only. Avoid eyes. Stop use if irritation develops.

GD-MO-204 | Night Renewal Cream (Retinol 0.2%) | Moisturizer	
Product ID and size	GD-MO-204, 30 ml, price 520 EGP
Skin types	Normal, dry and combination skin (not a first product for sensitive skin)
Key ingredients	Retinol 0.2%, Ceramide NP, Squalane, Glycerin 3%
Benefits	A night cream with retinol 0.2% for a smoother-looking skin texture over time, combined with ceramide NP, squalane and glycerin 3% to keep skin comfortable. Cosmetic use only.
Directions	Evening only. Use a pea-sized amount on dry skin after cleansing. Start with 2 nights per week for 2 weeks, then every other night, then nightly only if skin stays comfortable. Use sunscreen every morning.
Precautions	May cause temporary dryness, tingling or peeling. Do not use on the same night as GD-SE-304 or in the same routine as GD-SE-303. Avoid eyes and broken skin. Customers who are pregnant, planning pregnancy or breastfeeding should consult a healthcare professional before use.

How the moisturizers differ

Feature	GD-MO-201	GD-MO-202	GD-MO-203	GD-MO-204
Name	Barrier Repair Cream	Oil-Free Gel Moisturizer	Daily Light Lotion	Night Renewal Cream
Texture	Rich cream	Light gel	Light lotion	Cream
Best for	Dry, sensitive	Oily, combination	Normal, combination	Normal, dry, combination
Time of use	Morning and evening	Morning and evening	Morning and evening	Evening only
Size / price	50 ml / 420 EGP	50 ml / 380 EGP	100 ml / 340 EGP	30 ml / 520 EGP
Price per 10 ml	84 EGP	76 EGP	34 EGP	173 EGP

GD-MO-201 is the richest and the best match for dry skin; GD-MO-202 is the only oil-free moisturizer; GD-MO-203 is the best value per ml; GD-MO-204 is the only moisturizer with an active (retinol) and the only one restricted to evening use.

SECTION 4 OF 10 | SERUMS AND TARGETED TREATMENTS

4. Serums and Targeted Treatments

GlowDerma offers four serums and targeted treatments: GD-SE-301 (niacinamide), GD-SE-302 (hyaluronic acid), GD-SE-303 (vitamin C) and GD-SE-304 (salicylic acid). Serums are applied after cleansing and before moisturizer. All benefits below are cosmetic and describe the appearance and feel of skin; none of these products treats a medical condition.

GD-SE-301 | Niacinamide 5% Serum | Serum	
Product ID and size	GD-SE-301, 30 ml, price 360 EGP
Skin types	All skin types, especially oily and combination skin
Key ingredients	Niacinamide 5%, Glycerin, Panthenol
Cosmetic benefits	Helps improve the look of visible pores and uneven texture, helps balance the look of oiliness, and supports a smoother-looking skin tone.
Recommended usage	Morning or evening after cleansing, before moisturizer. Use 3 to 4 drops on face and neck. Start once daily.
Compatibility	Pairs with GD-SE-302 and all moisturizers. Can be used with GD-SE-303 in one routine; if tingling occurs, use GD-SE-303 in the morning and GD-SE-301 in the evening.
Precautions	Perform a patch test. Stop use if flushing, itching or stinging persists.

GD-SE-302 | Hyaluronic Acid Hydrating Serum | Serum	
Product ID and size	GD-SE-302, 30 ml, price 340 EGP
Skin types	All skin types, including dry and sensitive skin
Key ingredients	Sodium Hyaluronate 1%, Glycerin, Panthenol
Cosmetic benefits	Adds temporary surface hydration and a plumper-looking, smoother feel through sodium hyaluronate 1% and glycerin.
Recommended usage	Morning and evening on slightly damp skin, before moisturizer. Use 2 to 3 drops.
Compatibility	Can be layered under any other GlowDerma product. Always follow with a moisturizer (GD-MO-201, GD-MO-202, GD-MO-203 or GD-MO-204 at night) to seal in moisture.
Precautions	External use only. Stop use if irritation develops.

GD-SE-303 | Vitamin C Brightening Serum | Serum	
Product ID and size	GD-SE-303, 30 ml, price 450 EGP
Skin types	Normal, oily, combination and dry skin (not a first product for very sensitive skin)
Key ingredients	L-Ascorbic Acid (Vitamin C) 10%, Tocopherol (Vitamin E) 0.5%, Glycerin
Cosmetic benefits	Supports a brighter-looking complexion and an even-looking tone. L-ascorbic acid (vitamin C) 10% is paired with tocopherol (vitamin E) 0.5%, both antioxidant ingredients.
Recommended usage	Morning only, after cleansing and before moisturizer and sunscreen. Use 3 to 4 drops. Start every other morning in the first week.
Compatibility	Pairs with GD-SU-401, GD-SU-402 and GD-SU-403. Do not use in the same routine as GD-MO-204 (retinol) or GD-SE-304 (salicylic acid).
Precautions	Mild tingling can occur. Store tightly closed in a cool, dark place and use within 3 months of opening. A slight yellow tint is normal; a deep orange or brown color means the product has oxidized and should not be used.

GD-SE-304 | Salicylic Acid 2% Clarifying Treatment | Targeted treatment	
Product ID and size	GD-SE-304, 30 ml, price 395 EGP
Skin types	Oily and combination skin
Key ingredients	Salicylic Acid 2%, Panthenol, Green Tea Extract
Cosmetic benefits	Helps keep pores looking clearer and smooths the look of surface texture through salicylic acid 2%, with panthenol and green tea extract for comfort.
Recommended usage	Evening only. Apply a thin layer after cleansing. Start 2 nights per week, then every other night if skin stays comfortable. On GD-SE-304 nights during the first 4 weeks use GD-CL-101 or GD-CL-103 instead of GD-CL-102.
Compatibility	Do not use on the same night as GD-MO-204. Do not use in the same routine as GD-SE-303. Avoid combining with other exfoliating acids.
Precautions	Salicylic acid (BHA) can cause dryness and stinging. Avoid eyes and lips. Use sunscreen daily. Customers sensitive to salicylates, or who are pregnant or breastfeeding, should consult a professional before use.

Quick comparison: GD-SE-301 (360 EGP) and GD-SE-302 (340 EGP) are gentle daily serums; GD-SE-303 (450 EGP) is morning-only; GD-SE-304 (395 EGP) is evening-only and the strongest exfoliating product in the range. All four are 30 ml.

SECTION 5 OF 10 | SUNSCREEN AND DAILY PROTECTION

5. Sunscreen and Daily Protection

GlowDerma offers three sunscreens: **GD-SU-401 Daily Fluid SPF 50 PA++++**, **GD-SU-402 Mineral Sensitive SPF 30 PA+++** and **GD-SU-403 Hydrating Cream SPF 50 PA+++**. All three are described as broad-spectrum, all are 50 ml, and none is labelled water-resistant. Sunscreen is the last skincare step in the morning routine.

Feature	GD-SU-401	GD-SU-402	GD-SU-403
Name	Daily Fluid SPF 50 PA++++	Mineral Sensitive SPF 30 PA+++	Hydrating Cream SPF 50 PA+++
SPF / PA rating	SPF 50 / PA++++	SPF 30 / PA+++	SPF 50 / PA+++
Broad-spectrum	Yes (UVA and UVB)	Yes (UVA and UVB)	Yes (UVA and UVB)
Filter type	Organic (chemical) UV filter blend	Mineral filters: zinc oxide, titanium dioxide	Organic (chemical) UV filter blend
Key ingredients	Organic (chemical) UV Filter Blend, Tocopherol (Vitamin E), Glycerin	Zinc Oxide, Titanium Dioxide, Panthenol, Squalane	Organic (chemical) UV Filter Blend, Ceramide NP, Glycerin, Squalane
Skin types	All, especially oily and combination	Sensitive, normal, dry	Dry and normal
Texture and finish	Ultra-light fluid, no white cast, natural matte finish	Creamy mineral lotion; may leave a slight white cast, especially on deeper skin tones	Rich cream, dewy finish
Size / price	50 ml / 330 EGP	50 ml / 360 EGP	50 ml / 350 EGP

Application instructions

Apply sunscreen as the final step of the morning routine, after moisturizer. Use about a quarter of a teaspoon for the face and neck, or two finger-lengths of product. Apply about 15 minutes before going outdoors. Do not skip the neck and ears. Apply an even layer; a thin layer gives lower protection than the labelled SPF.

Reapplication guidance

When outdoors, reapply every 2 hours, and also after swimming, heavy sweating or towel drying, because none of the three products is labelled water-resistant. If the customer is mostly indoors, one morning application is usually enough. When wearing makeup, reapply by patting a small amount of sunscreen over the skin. Sunscreen does not give complete protection; combine it with shade, a hat and clothing, especially around midday.

Differences between the sunscreen options

GD-SU-401 has the highest ratings (SPF 50 and PA++++) and the lightest feel, which suits oily and combination skin and hot weather. **GD-SU-402** uses mineral filters (zinc oxide and titanium dioxide) rather than chemical filters, which some customers with sensitive skin prefer; its rating is lower (SPF 30, PA+++) and it can leave a slight white cast. **GD-SU-403** has SPF 50 with PA+++ and adds ceramide NP, glycerin and squalane in a richer cream, which suits dry skin. GD-SU-401 is the cheapest at 330 EGP; GD-SU-403 costs 350 EGP; GD-SU-402 costs 360 EGP.

Removing sunscreen in the evening

Remove sunscreen in the evening with a first cleanse using GD-CL-103 Micellar Cleansing Water, then a second cleanse with GD-CL-101 (dry, normal or sensitive skin) or GD-CL-102 (oily or combination skin). Mineral sunscreen such as GD-SU-402 benefits especially from a double cleanse.

Precautions

For external use only. Avoid the eyes; rinse with water if contact occurs. Stop use if a rash develops. Customers using retinol (GD-MO-204), salicylic acid (GD-SE-304, GD-CL-102) or vitamin C (GD-SE-303) should use sunscreen every day, because these products are part of routines in which daily sun protection is recommended.

SECTION 6 OF 10 | INGREDIENTS KNOWLEDGE BASE

6. Ingredients Knowledge Base

How to read this page. The columns on general purpose, categories and precautions give general cosmetic information about each ingredient as commonly used across the skincare industry. They are not performance claims about GlowDerma products. The last column is the only brand-specific data: it lists which GlowDerma product IDs contain the ingredient and at what stated concentration. Where no percentage is shown, the ingredient is present but its concentration is not specified in this document.

Ingredient	General cosmetic purpose	Typical product categories	Common precautions	GlowDerma product IDs
Niacinamide (vitamin B3)	Supports a smoother-looking, more even-looking skin surface; helps balance the look of oiliness.	Serums, moisturizers	Can cause flushing or tingling in some people; patch test.	GD-MO-202 (2%); GD-SE-301 (5%)
Hyaluronic acid (as sodium hyaluronate)	Humectant that attracts and holds water on the skin surface for a hydrated, plump feel.	Serums, moisturizers	Generally well tolerated; apply on damp skin and seal with a moisturizer.	GD-MO-202 (0.5%); GD-SE-302 (1%)
Vitamin C (L-ascorbic acid)	Antioxidant ingredient used for brighter-looking, even-looking skin.	Morning serums	Can tingle; unstable in light and air; use sunscreen daily; avoid same routine as retinol or salicylic acid.	GD-SE-303 (10%)
Salicylic acid (BHA)	Oil-soluble exfoliating acid used to cleanse pores and smooth the look of skin texture.	Cleansers, targeted treatments	Dryness, stinging; avoid eyes; sunscreen daily; consult if salicylate-sensitive or pregnant.	GD-CL-102 (0.5%); GD-SE-304 (2%)
Ceramides	Skin-identical lipids that help support the skin barrier and reduce water loss.	Cleansers, moisturizers, sunscreens	Generally well tolerated.	GD-CL-101 (NP); GD-MO-201 (NP, AP, EOP); GD-MO-204 (NP); GD-SU-403 (NP)
Retinol (vitamin A)	Used in night products for smoother-looking texture over time.	Night creams and serums	Dryness, tingling, peeling; start slowly; sunscreen daily; not in same routine as vitamin C; consult a professional if pregnant.	GD-MO-204 (0.2%)
Glycerin	Humectant that draws water to the skin and keeps it feeling soft.	All categories	Very well tolerated; best sealed with a moisturizer in dry air.	GD-CL-101; GD-CL-102; GD-CL-103; GD-MO-201 (5%); GD-MO-202 (3%); GD-MO-203 (4%); GD-MO-204 (3%); GD-SE-301; GD-SE-302; GD-SE-303; GD-SU-401; GD-SU-403

Supporting ingredients that appear in the catalog

Ingredient	General cosmetic purpose	GlowDerma product IDs
Panthenol (provitamin B5)	Soothing, moisturizing ingredient.	GD-CL-101; GD-CL-103; GD-MO-202; GD-MO-203; GD-SE-301; GD-SE-302; GD-SE-304; GD-SU-402
Squalane	Lightweight emollient that softens skin.	GD-MO-201; GD-MO-203; GD-MO-204; GD-SU-402; GD-SU-403
Tocopherol (vitamin E)	Antioxidant ingredient; also supports the formula.	GD-MO-203; GD-SE-303 (0.5%); GD-SU-401
Zinc PCA	Used in cosmetics for oily-looking skin.	GD-CL-102
Zinc oxide and titanium dioxide	Mineral (physical) UV filters.	GD-SU-402 (zinc oxide and titanium dioxide)

Glossary of ingredient terms

Term	Definition
Humectant	An ingredient that attracts water. Examples: glycerin, hyaluronic acid.
Emollient	An ingredient that softens and smooths skin. Example: squalane.
Antioxidant	An ingredient used to help protect the formula and the look of skin from environmental stress. Examples: vitamin C, vitamin E.
Exfoliant	An ingredient that helps loosen dead surface cells. Examples: salicylic acid (BHA).
Skin barrier	The outer layer of skin that limits water loss and keeps irritants out.

Ingredient-to-product shortcuts: the retinol product is GD-MO-204; the vitamin C product is GD-SE-303; the niacinamide serum is GD-SE-301; the hyaluronic acid serum is GD-SE-302; the salicylic acid products are GD-SE-304 (2%) and GD-CL-102 (0.5%).

SECTION 7 OF 10 | SKINCARE ROUTINES

7. Skincare Routines

Each routine lists product IDs in application order. Routines are general cosmetic guidance and are not a treatment plan. Totals are the combined price of the listed products in EGP.

7.1 Morning routine for oily skin

Step	Product ID	Product name	Price (EGP)
1. Cleanse	GD-CL-102	Clarifying Gel Cleanser	265
2. Niacinamide serum	GD-SE-301	Niacinamide 5% Serum	360
3. Moisturize	GD-MO-202	Oil-Free Gel Moisturizer	380
4. Sunscreen	GD-SU-401	Daily Fluid SPF 50 PA++++	330

Total: 1335 EGP. Precautions: use GD-CL-102 once daily at first; if skin feels tight, switch to GD-CL-101 on alternate mornings. Sunscreen is essential because GD-CL-102 contains salicylic acid.

7.2 Morning routine for dry skin

Step	Product ID	Product name	Price (EGP)
1. Cleanse	GD-CL-101	Gentle Cream Cleanser	245
2. Hyaluronic acid serum	GD-SE-302	Hyaluronic Acid Hydrating Serum	340
3. Moisturize	GD-MO-201	Barrier Repair Cream	420
4. Sunscreen	GD-SU-403	Hydrating Cream SPF 50 PA+++	350

Total: 1355 EGP. Precautions: apply GD-SE-302 to slightly damp skin and seal it with GD-MO-201; avoid very hot water when washing.

7.3 Evening routine for combination skin

Step	Non-retinol nights	Retinol nights (2 nights per week at first)
1. First cleanse	GD-CL-103 Micellar Cleansing Water	GD-CL-103 Micellar Cleansing Water
2. Second cleanse	GD-CL-102 Clarifying Gel Cleanser	GD-CL-101 Gentle Cream Cleanser
3. Serum	GD-SE-302 Hyaluronic Acid Hydrating Serum	GD-SE-302 Hyaluronic Acid Hydrating Serum
4. Moisturize	GD-MO-203 Daily Light Lotion	GD-MO-204 Night Renewal Cream (Retinol 0.2%)
Total	1235 EGP	1395 EGP

Precautions: on retinol nights use GD-CL-101 instead of GD-CL-102 to avoid combining salicylic acid with retinol. Buying every product in this routine (GD-CL-103, GD-CL-102, GD-CL-101, GD-SE-302, GD-MO-203, GD-MO-204) costs 2000 EGP.

7.4 Beginner-friendly routine for sensitive skin

Time	Product IDs in order	Notes
Morning	GD-CL-101, then GD-MO-201, then GD-SU-402	Core 3-product routine. Total 1025 EGP.
Evening	GD-CL-103 (to remove mineral sunscreen), then GD-CL-101, then GD-MO-201	GD-CL-103 adds 290 EGP if purchased separately.
From week 3	Add GD-SE-302 after cleansing	Hydration only; adds 340 EGP.
From week 5 (optional)	Add GD-SE-301 on alternate days	Adds 360 EGP. Patch test first.

Sensitive-skin precautions: avoid GD-CL-102, GD-SE-303, GD-SE-304 and GD-MO-204 until the base routine has been comfortable for at least 6 to 8 weeks, and consult a professional if skin often stings or reddens.

7.5 How to introduce new products gradually

Stage	What to do	Why
Before use	Patch test on the inner forearm for 24 hours.	Detects obvious reactions before facial use.
Weeks 1 to 2	Use only cleanser, moisturizer and sunscreen.	Gives a stable baseline.
One new product at a time	Add a single new product and wait 7 to 14 days before adding another.	Makes the cause of any irritation clear.
Actives (GD-MO-204, GD-SE-304, GD-SE-303)	Start 2 nights per week (GD-SE-303: every other morning), then increase slowly.	Reduces dryness, tingling and peeling.
If irritation occurs	Stop the newest product, simplify to cleanser, moisturizer and sunscreen.	Lets skin settle. Seek professional advice if it persists.

SECTION 8 OF 10 | PRODUCT SELECTION AND COMPATIBILITY

8. Product Selection and Compatibility

8.1 Choosing products by skin type

Skin type	Suitable product IDs	Selection notes
Oily	GD-CL-102, GD-SE-301, GD-SE-304, GD-MO-202, GD-SU-401	Prefer gel and fluid textures. Add GD-SE-304 only after the basic routine is comfortable.
Dry	GD-CL-101, GD-SE-302, GD-MO-201, GD-SU-403	Prefer cream textures. GD-MO-204 can be added at night once comfortable.
Combination	GD-CL-102, GD-CL-103, GD-SE-301, GD-SE-302, GD-MO-202, GD-MO-203, GD-SU-401	Mix textures if needed. GD-MO-204 is possible at night.
Normal	GD-CL-101, GD-CL-103, GD-SE-301, GD-SE-302, GD-SE-303, GD-MO-203, GD-SU-401, GD-SU-403	Most products are suitable; start actives gradually.
Sensitive	GD-CL-101, GD-CL-103, GD-SE-302, GD-MO-201, GD-SU-402	Keep routines short and fragrance-free; patch test everything.

8.2 Frequently asked selection questions

I have oily skin. Which moisturizer should I use? GD-MO-202 Oil-Free Gel Moisturizer (380 EGP). Oily skin still needs moisturizer, and this one is oil-free.

Which sunscreen suits sensitive skin? GD-SU-402 Mineral Sensitive SPF 30 PA+++ (360 EGP), with mineral filters; note its lower SPF and possible slight white cast.

Which serum should a beginner start with? GD-SE-302 Hyaluronic Acid Hydrating Serum (340 EGP), which has no exfoliating or retinoid ingredients.

8.3 Compatibility of common active ingredients

Combination	Guidance	Reason
Niacinamide + vitamin C (GD-SE-301 + GD-SE-303)	Usually compatible	If tingling occurs, use vitamin C in the morning and niacinamide in the evening.
Vitamin C + retinol (GD-SE-303 + GD-MO-204)	Caution: do not use in the same routine	Use vitamin C in the morning and retinol at night to limit irritation.
Retinol + salicylic acid (GD-MO-204 + GD-SE-304 or GD-CL-102)	Caution: avoid on the same night	Both can dry and irritate skin; alternate nights.
Salicylic acid + vitamin C (GD-SE-304 or GD-CL-102 + GD-SE-303)	Caution at the start	Both are acidic and can sting; separate morning and evening.
Niacinamide + retinol (GD-SE-301 + GD-MO-204)	Generally compatible	Apply niacinamide first; separate if irritation occurs.
Niacinamide + salicylic acid (GD-SE-301 + GD-SE-304)	Compatible	Best separated: GD-SE-301 in the morning, GD-SE-304 in the evening.
Hyaluronic acid or ceramides + any active	Compatible	They support hydration and the skin barrier and can be layered with most products.
Two exfoliating products (GD-SE-304 + GD-CL-102)	Caution	Cumulative salicylic acid; use GD-CL-101 or GD-CL-103 on GD-SE-304 nights.

8.4 Customer scenarios and suitable recommendations

Scenario	Suitable products	Reason
Oily skin in hot weather, wants a simple morning routine under 1,400 EGP	GD-CL-102, GD-SE-301, GD-MO-202, GD-SU-401 (total 1335 EGP)	Light textures and the highest-rated sunscreen.
Dry, tight-feeling skin after washing	GD-CL-101, GD-SE-302, GD-MO-201, GD-SU-403 (total 1355 EGP)	Cream cleanser, hydration serum, ceramide-rich cream, hydrating sunscreen.
Normal skin, wants a brighter-looking complexion	GD-SE-303 in the morning, with GD-MO-203 and GD-SU-401 (total 1120 EGP)	Vitamin C is for mornings and needs daily sunscreen.
Sensitive skin, never used actives	GD-CL-101, GD-MO-201, GD-SU-402 (total 1025 EGP)	Short, gentle routine with a mineral sunscreen.
Combination skin, wants to try retinol	GD-MO-204 at night with GD-CL-101 and GD-SU-401 in the morning	Start 2 nights per week; avoid GD-SE-303 and GD-SE-304 initially.

Medical boundary. GlowDerma products are cosmetics. If a customer describes persistent redness, itchy or painful patches, bleeding, swelling, spreading rashes or any condition they want to treat, the chatbot should not recommend a product as a treatment and should suggest consulting a qualified dermatologist.

SECTION 9 OF 10 | ORDERS, SHIPPING, RETURNS, CUSTOMER SERVICE

9. Orders, Shipping, Returns and Customer Service

FICTIONAL POLICIES. Every policy on this page is an invented example created for demonstration. They do not represent any real company. All prices are in EGP.

9.1 Order placement and payment methods

Orders are placed on www.glowderma.example (fictional) or by WhatsApp. After checkout the customer receives a confirmation email with an order number in the format GD-ORD-12345. An order can be edited or cancelled free of charge before it is dispatched. Orders are processed within 1 business day; delivery estimates below start after dispatch.

Payment method	Details
Credit or debit card (Visa, Mastercard)	Charged at checkout; order confirmed immediately.
Mobile wallet	Payment request sent to the customer's wallet; order confirmed on payment.
Cash on delivery (COD)	Pay the courier. A COD fee of 20 EGP applies. Available for orders up to 3,000 EGP.

9.2 Shipping policy within Egypt

Service / zone	Estimated delivery after dispatch	Fee
Standard: Greater Cairo and Giza	1 to 3 business days	50 EGP
Standard: Alexandria and Delta governorates	2 to 4 business days	60 EGP
Standard: Upper Egypt and other governorates	3 to 6 business days	75 EGP
Express: Greater Cairo and Giza (order before 14:00 on a business day)	Next business day	90 EGP

Standard shipping is free for orders of 800 EGP or more. Free shipping does not apply to express shipping. Delivery attempts are made twice; after two failed attempts the parcel returns to the warehouse.

9.3 Returns and exchanges

Eligibility: unopened, sealed and unused products can be returned or exchanged within 14 days of delivery, in original packaging with the order number. **Opened products** can be returned only if they are damaged, defective or the wrong item, and this must be reported within 7 days of delivery. **Exchanges** are subject to stock availability. Return shipping is free when the error is GlowDerma's (damaged, defective or wrong item); otherwise the customer pays a 50 EGP return fee. Products purchased as final sale cannot be returned.

9.4 Refund timelines

Original payment	Refund method	Timeline
Credit or debit card	Back to the same card	5 to 7 business days after the returned item is inspected
Mobile wallet	Back to the same wallet	5 to 7 business days after inspection
Cash on delivery	Bank transfer or mobile wallet	7 to 10 business days after inspection. The 20 EGP COD fee is not refunded.

9.5 Damaged, defective or missing orders

If an order arrives damaged, leaks, or contains the wrong or missing items, report it within 48 hours of delivery to support@glowderma.example or WhatsApp +20 100 555 0123 with the order number and clear photos of the parcel and the product. The customer can choose a replacement or a full refund, subject to stock. If a parcel has not arrived 7 business days after dispatch, support opens a courier investigation and resends or refunds the order.

9.6 Customer service FAQ

Can I cancel my order? Yes, free of charge before dispatch. Contact support during business hours (Sunday to Thursday).

Do I qualify for free shipping? Yes if the order is 800 EGP or more. For example, the oily-skin morning routine of 1335 EGP qualifies for free standard shipping; a single GD-SU-401 (330 EGP) does not.

Can I return an opened serum because it did not suit me? No, unless it is damaged, defective or the wrong item. Opened products are not returnable for change of mind.

How do I reach support on a Friday? Support is closed on Fridays and Saturdays. Website orders and email submissions are accepted; replies come on the next business day.

SECTION 10 OF 10 | COMPREHENSIVE FAQ AND TROUBLESHOOTING

10. Comprehensive FAQ and Troubleshooting

Answers below reuse facts from Sections 1 to 9. Questions marked (multi-section) combine information from more than one section.

Q1. Which cleanser is best for dry, sensitive skin? GD-CL-101 Gentle Cream Cleanser (150 ml, 245 EGP), with glycerin, ceramide NP, panthenol and allantoin. It is also the cheapest GlowDerma product.

Q2. Which product contains retinol and how much does it cost? GD-MO-204 Night Renewal Cream (Retinol 0.2%), 30 ml, 520 EGP. It is for evening use only.

Q3. Which products contain salicylic acid? GD-CL-102 Clarifying Gel Cleanser (0.5%, 265 EGP) and GD-SE-304 Salicylic Acid 2% Clarifying Treatment (2%, 395 EGP).

Q4. Which products contain niacinamide? GD-SE-301 Niacinamide 5% Serum (5%, 360 EGP) and GD-MO-202 Oil-Free Gel Moisturizer (2%, 380 EGP).

Q5. Which products contain ceramides? GD-CL-101, GD-MO-201 (ceramide NP, AP and EOP), GD-MO-204 and GD-SU-403, each with ceramide NP.

Q6. What is the cheapest sunscreen and what are its ratings? GD-SU-401 Daily Fluid at 330 EGP, rated SPF 50 and PA++++, broad-spectrum, 50 ml.

Q7. Which sunscreen uses mineral filters? GD-SU-402 Mineral Sensitive SPF 30 PA+++ (360 EGP), with zinc oxide and titanium dioxide. It may leave a slight white cast.

Q8. How often should I reapply sunscreen? (multi-section) Every 2 hours when outdoors and after swimming or sweating, since none of GD-SU-401, GD-SU-402 or GD-SU-403 is water-resistant. Remove it in the evening with GD-CL-103 first.

Q9. Which products suit oily skin? GD-CL-102, GD-SE-301, GD-SE-304, GD-MO-202 and GD-SU-401.

Q10. What is the difference between GD-MO-201 and GD-MO-203? GD-MO-201 is a rich 50 ml ceramide cream for dry skin (420 EGP); GD-MO-203 is a light 100 ml lotion for normal to combination skin (340 EGP).

Q11. Can I use vitamin C and retinol together? (multi-section) Not in the same routine. Use GD-SE-303 in the morning and GD-MO-204 in the evening, always with daily sunscreen.

Q12. Can I use GD-SE-304 and GD-MO-204 on the same night? No. Alternate nights, and on GD-SE-304 nights use GD-CL-101 or GD-CL-103 instead of GD-CL-102 for the first 4 weeks.

Q13. How should I start retinol? (multi-section) Patch test, then use GD-MO-204 2 nights per week for 2 weeks, move to every other night, and use sunscreen every morning.

Q14. What does the beginner sensitive-skin routine cost? (multi-section) GD-CL-101 + GD-MO-201 + GD-SU-402 = 1025 EGP, which qualifies for free standard shipping (800 EGP or more).

Q15. What is the total of the dry-skin morning routine? GD-CL-101, GD-SE-302, GD-MO-201 and GD-SU-403 total 1355 EGP.

Q16. How long does delivery to Alexandria take and what does it cost? (multi-section) 2 to 4 business days after dispatch plus 1 business day processing, 60 EGP standard, free if the order is 800 EGP or more.

Q17. What payment methods are accepted? Credit or debit card, mobile wallet, and cash on delivery (20 EGP fee, up to 3,000 EGP).

Q18. Can I return an unopened GD-SE-301 bought 10 days ago? Yes. Unopened products can be returned within 14 days of delivery. Card refunds take 5 to 7 business days after inspection.

Q19. My GD-MO-201 arrived leaking. What do I do? Report within 48 hours to support with the order number and photos. You can choose a replacement or a full refund.

Q20. What are the support hours? (multi-section) Sunday to Thursday, 09:00 to 18:00 for email and phone, and 09:00 to 21:00 for WhatsApp and live chat. Closed Friday and Saturday.

Q21. Are GlowDerma products treatments for acne, eczema or rosacea? No. They are cosmetics. Anyone with such a condition should see a qualified dermatologist.

Q22. Is GlowDerma a real company? No. The company and all details in this document are fictional and used for demonstration only.

Troubleshooting guide

Situation	Recommended response
Missing information: the question is not answered in this document (for example a full ingredient list, expiry date or stock level).	Say clearly that the document does not contain the answer; do not guess. Suggest contacting support at support@glowderma.example or WhatsApp +20 100 555 0123 (Sunday to Thursday).
Ingredient sensitivity: a customer reports stinging, redness or itching after using a product, or has a known allergy.	Advise stopping the newest product, rinsing with water and returning to a simple routine. Recommend a patch test for future products and consulting a qualified professional if symptoms persist. Note that only key ingredients are listed here, so check the full ingredient list with support before purchase.
Dermatologist referral: persistent redness, itchy or painful patches, bleeding, swelling, suspected infection, pregnancy or breastfeeding questions about GD-MO-204, GD-SE-303 or GD-SE-304, or any request to treat a medical condition.	Do not recommend products as treatments or diagnose. Advise consultation with a qualified dermatologist or healthcare professional.
